Subject: MPM Silicones response

Hi Luis,

I wanted to follow-up on our brief conversation yesterday about MPM and their response to the PCB Information request sent last fall, since it seems that we were both waiting on each other.

Attached is a memo outlining our thoughts concerning the site and the response. The referenced compilation of information used in formulating the memo is nearly 13 MB in size, so I might have to break it down & send it in two additional emails if it gets blocked during my initial attempt (we use to have a 10 MB cap/email).

Please let us know if you have any questions & thanks for your assistance.

Sincerely,

Don Martin
